

Program Management

- Systems Engineering
- Strategic Planning and Organizational Development
- Technical Advisory and Assistance Services
- Life-cycle Management
- Logistics Support
- Risk Management
- Training and Development Funding, Solutions, for Training

Resource Optimization

- Strategic Financial Planning and Auditing
- Budgeting / PPBE Support
- Performance and Program Evaluation
- Cost Forecasting and Modeling
- Risk & Staffing Level Management
- Deterministic Modeling

Planning, Programming, Budgeting & Execution (PPBE)

- Technical Project Management
- Budget Controls and Change Management
- SMEs / Management Staffing
- Performance Management and Support

DEEP EXPERTISE

Project Management Mastery

End-to-end project oversight grounded in PMI best practices—controlling scope, schedule, cost, and risk to keep mission-critical programs on track and within budget.

Compliance, Standards & Process Discipline

Rigorous enforcement of federal laws, security policies, and quality standards to ensure systems meet confidentiality, integrity, and availability requirements without disruption or rework.

Strategic Oversight & Integrated Planning

Integrated master planning for complex, multi-site initiatives—aligning IT, operations, and mission objectives across MILCON, networks, and contingency environments.

DEMONSTRATED IMPACT

- Enabled global intelligence operations by delivering PMI-aligned IT project management across MILCON, enterprise services, networking, and contingency planning—supporting 17,000+ personnel at 180 locations worldwide.
- Sustained mission-critical intelligence networks by successfully closing 148 IT projects and managing 73 active efforts, ensuring uninterrupted support to military commanders and national decision-makers.
- Connected Army formations to defense and national intelligence agencies through synchronized tactical and enterprise networks, strengthening worldwide intelligence, security, and information operations.
- Informed Army PPBE decisions through targeted functional and technical analyses of force structure, training, personnel, and financial data—enabling predictive planning and performance evaluation across the entire Army training enterprise.
